AI-Native Product Builder, UI/UX Designer
Hyderabad, India | +91 8919237170 | taushikok@gmail.com
linkedin.com/in/taushik-chandana-16ba14378 | github.com/tnex0734-ops | taushikportfolio.vercel.app

## SKILLS

**Design:** UI Design, UX Design, UX Research, Visual Design, Interaction Design, Storytelling, Problem Solving, Vibe Coding
**Tools:** Figma, Figma Make, Lovable, Stitch, Miro, Replit, Canva, Codex, Cursor, Antigravity

## WORK EXPERIENCE

**UX/UI Designer** — The Regiment (Internship, Remote) *Jun 2026 – Sep 2026*

- Designed UI/UX flows for an AI-powered SaaS product, translating requirements into wireframes and high-fidelity prototypes in Figma.

**Core Member** — UIUX Hyderabad *May 2026 – Present*

- Engaged with designers and industry professionals through workshops, mentorship sessions, and portfolio reviews, while exploring user-centered design and emerging UX practices.

**User Experience Designer** — Acquiq (Internship, Remote) *May 2026 – Jul 2026*

- Revamped the landing page and introduced the Acquiq Bot to strengthen product personality and user engagement.
- Redesigned key dashboard modules, including Drives, Integrations, and Analytics, improving usability and visual consistency.
- Enhanced the Drives experience with improved UI cards, better credit visibility, and candidate-level filters (L1, L2, L3).
- Reorganized Analytics to prioritize the most relevant metrics for faster decision-making.
- Simplified candidate management by introducing bulk CSV/Excel import for large-scale hiring workflows.
- Conducted UX testing, audits, and usability improvements across interview engines and automated workflows.
- Improved the conversational UX for AI assistant commands to make interactions more intuitive.
- Ensured a consistent, user-centered design system across the platform.

**UX/UI Designer** — RamScript Private Limited (Internship, Remote) *Jan 2026 – Feb 2026*

- Contributed to the 0→1 design of Equifiz as a UI/UX Design Intern, working across both mobile and desktop experiences.
- Designed and prototyped a wide range of product experiences, including Stock Screener, IPOs, Mutual Funds, ETFs, Indices, FizQuest, FizTalks, Watchlist, Valuation Models, Fundamentals, Sectors, Correlation, News, and Reports.
- Also worked on charts and graphs for sector valuations and other data-heavy sections, focusing on presenting financial information through clear visual interfaces.
